

# Highlights from Mali

Maria Luisa Russo  
University of Hamburg

With special thank you to the donors: Auswärtiges Amt, Gerda Henkel Stiftung, Jutta Vogel Stiftung.

This is an overview of the last months' activities on the different projects in Mali, narrated by way of photographs. Some of these are relevant public events, such as conferences and workshops; some others are mundane activities essential for the achievements we have reached so far.

This is a personal way of thanking you for your generous support of the projects and my work.

Maria Luisa Russo

# Dry cleaning of manuscripts

# Checking the conditions in the storage rooms

# Box making

# Making handlists of manuscripts
